# IT WORKS UNDER ANY CONDITION

Get Familiar With The First Family of Scanners  
Built Tougher Than Your Work Environment

# UNSTOPPABLE PERFORMANCE STARTS HERE

## THE THREE FACES OF AN ULTRA RUGGED SCANNER

The 3600 Series is in a class by itself. Here's why:

### SUPERIOR PERFORMANCE

**Drives worker productivity to new heights with advanced capture technology.**

- Over 30% more working range vs. competition
- Optimizes performance by dramatically reducing decode and recover time
- 50% more scans-per-charge vs. competition
  - PowerPrecision+ battery
  - On-unit charge gauge

### ULTRA-RUGGED DESIGN

**Delivers uncompromising performance, even in the most challenging work conditions.**

- Completely waterproof - the only IP67 seal rating in its class
- 8 foot (2.45m) drop spec – 23% more durability vs. competition
- Tested for 5,000 1 meter tumbles
- IP65 rated cradle for the most rugged environments
- -30° C Operating Temp

### UNRIVALED MANAGEABILITY

**Equates to significantly reduced downtime and total cost of ownership.**

- 123Scan2 facilitates scanner configuration and deployment
- Seamless integration and operation with other Zebra solutions
- Centralized Remote Management of entire scanner fleet
- Visibility into the scanner fleet's battery age, health percentage, charge level and current charge cycles
